

# Virex sharing application

**Author:** Philipp Wolf

**Function:** Director Protection Labs

**Date:** 2012-05-14

## Agenda

- ➤ Norman sharing standard, history & statistics
- ➤ Virex: Requirements & installation
- **▶** Virex: User management
- ➤ Virex: External view
- **➤** Virex: Statistics
- **▶** Virex: Help document
- **▶** Live Demo
- **▶** Virex: Notes

## **History of the Norman Sample Sharing framework**

➤ The idea for the Norman Sample Sharing framework was born at VB2009 and was introduced at Caro2010 by employees of Norman (hence the name)

➤ Norman completely switched to the Norman Sample Sharing framework in January 2011 for any exchange of malware samples

## History of Avira's sample sharing

### Frequent (monthly) exchange with other vendors:

- **➤** 2001 6 vendors
- ➤ 2003 12 vendors
- ➤ 2006 20 vendors
- ➤ 2009 37 vendors
- **➤ 2011 58 vendors**

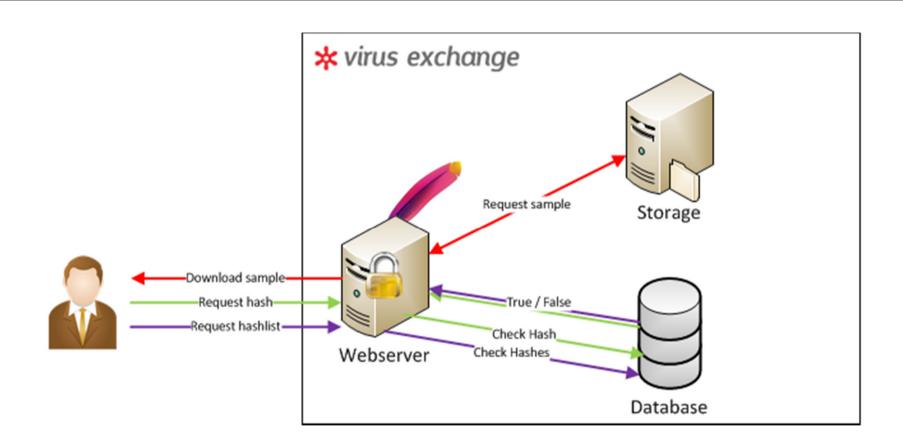

### **Statistics of Avira's sample sharing**

➤ Avira is currently sharing malware collections with 58 companies

➤ Only 7 companies are using the Norman Sampleshare Framework (12%)

- ➤ Average of duplicate downloaded files:
  - 12.000 malware samples per day (4.4 million samples per year)
  - 7 GB daily traffic (2.5 TB traffic per year)

## Norman sharing standard

### **Virex: Requirements**

### **➤** Hardware requirements

depend on the amount of samples and users you want to handle in the system. Basically a
web-server with 512 MB RAM & 50 GB HD is fine.

### ➤ Software requirements

- UNIX or Microsoft Windows based operating system
- Apache2
- PHP5
- MySQL
- Yii framework
- Fusion Charts
- SMTP Server
- GnuPG
- 7zip

### **Virex: Installation**

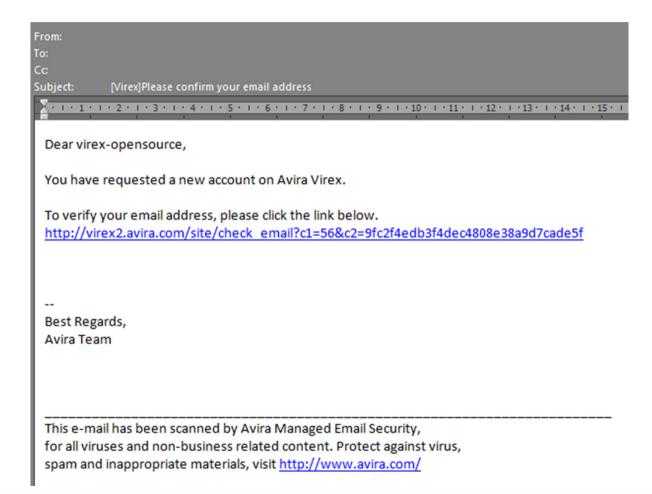

<b>≯</b> virus exchange		
Installation		
Configuration  Database  MySQL host:  MySQL username:  MySQL password:  Database name:	localhost	
Paths  Yii script full path:  Sample storage path:  Incoming archives path:  Temp path:	/tmp	
Administrator account  Admin email (login):  Admin password:	admin@virex.org  •••••  Install	
VIREX is based on the Norman Sample Sharing framework.		

<b>≭</b> virus exchange		
Register		Fields with * are required.
Username *		
Company *		
Email *		
Password *		
Confirm password *		
Public PGP Key *		
Verification Code *	Set a new code	1
Please enter the I Letters are not ca:	etters as they are shown in the image above.

### **Virex: External view**

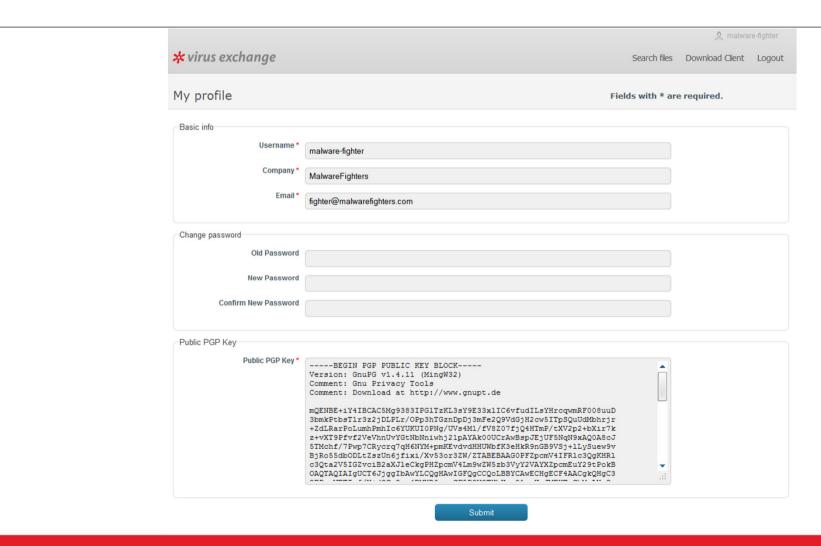

### **Virex: External view**

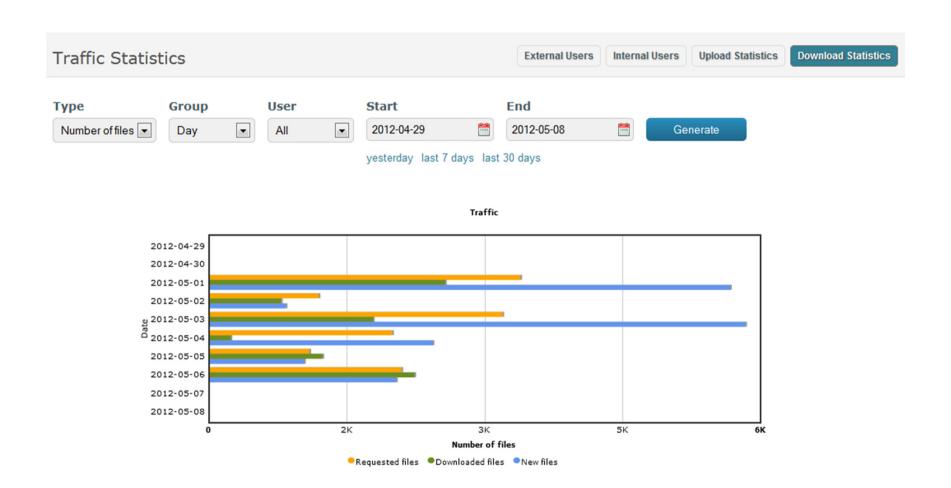

### **Virex: External view**

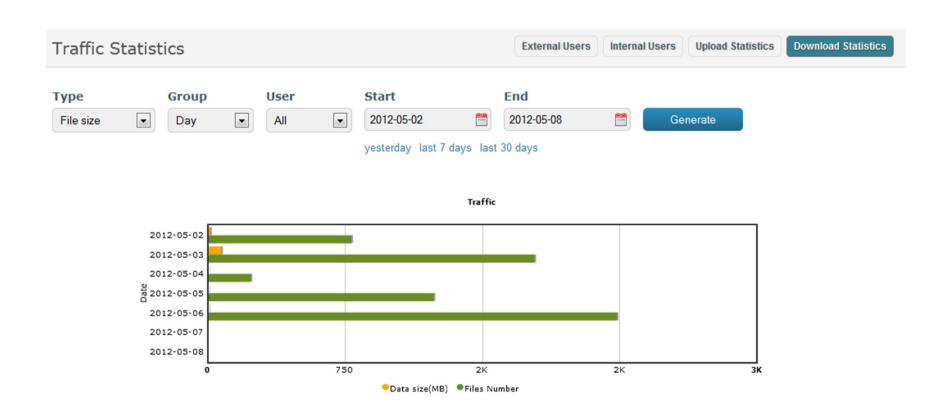

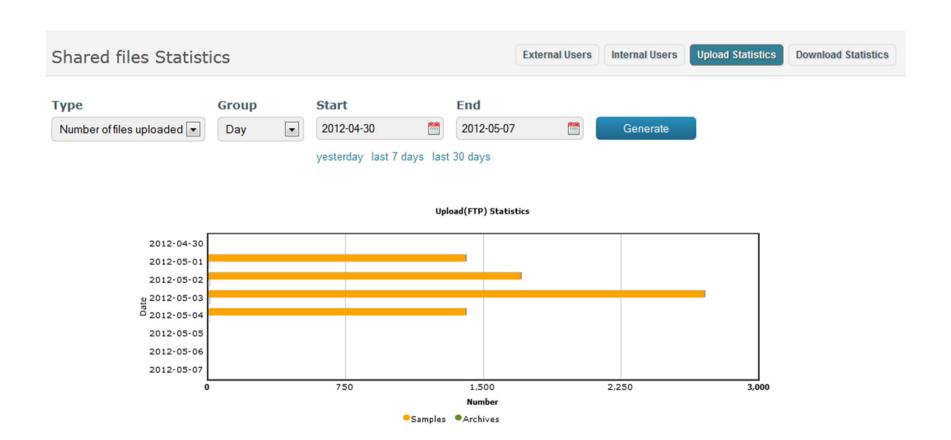

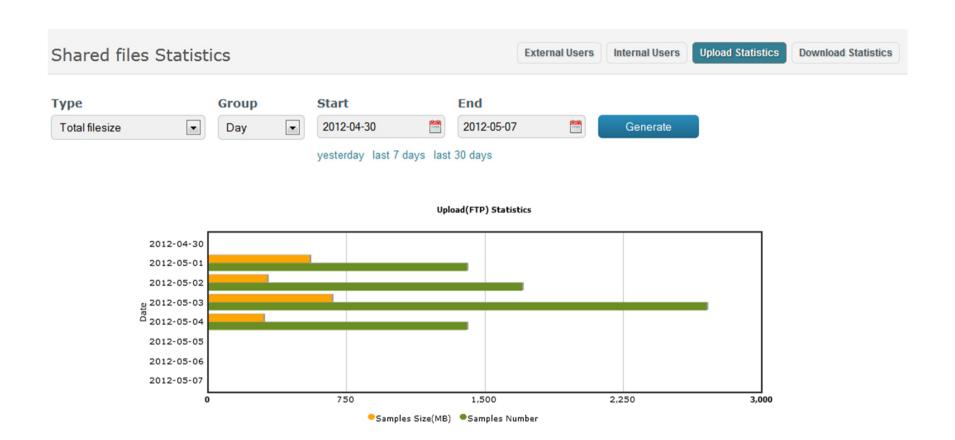

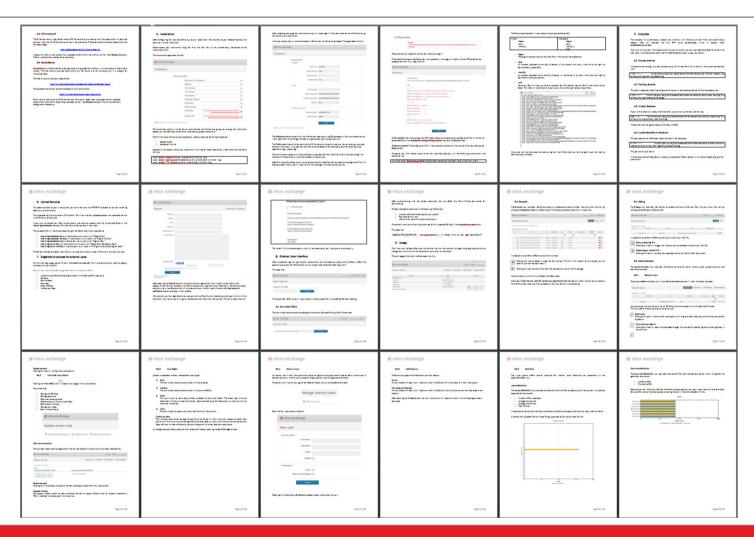

## **Virex: Help document**

### Virex: Live demo

➤ The application is published under the "new BSD license"

➤ The project is hosted on Google Code http://code.google.com/p/virex

➤ Reporting issues is possible on the project site

➤ Submitting code is possible using GIT repository on Google Code

## **Questions? Questions!**
